## ***What is Main Street's Security Camera Grant?***

The Security camera grant was created to encourage property and business owners to install video surveillance equipment in the downtown. The goal is very basic: public safety through crime reduction.

Not only was the program created to improve public safety, but to increase the security for all downtown businesses and the streetscape (public space). Keeping downtown crime levels low is key to maintaining a safe and positive environment for all of the prospective convention attendees, WVU students, local residents, visitors, and customers who visit the downtown.

**To quantify for the grant you Must be located in the MSM boundaries**

Call the office today regarding the Security Camera Grant

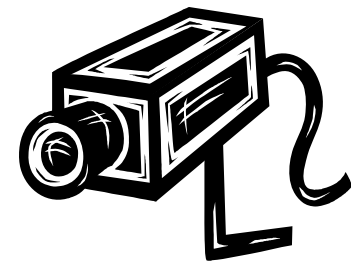

(304-292-0168)

## ***Security Camera Grant Program Guidelines***

1. MSM will provide up to **\$1500** (available with a 50/50 match). To be eligible for the grant the Security Review Committee or the Executive Director must determine that the camera installation will benefit not only the property/business owner, but also the surrounding public space.
2. Recordings must be made available to the Morgantown City Police Department via internet (only if there is a reported incident or crime). These recordings will need to be saved on a (DVR System) up to 5 business days.
3. It is also recommended that you provide one camera per 30 feet to be approved for these grant dollars. An onsite visit is available for anyone considering this grant, to assure grant approval.

## ***Recommended features for Security System***

- ◆ DVR (digital video recording)
- ◆ 480 line in color minimum
- ◆ .2 LUX maximum
- ◆ Shock resistant cameras
- ◆ Surveillance area of 30 feet per camera

**Installation could control your insurance cost and vandalism.**
